

Submitter:

Michael Dwyre

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

Please don't mess with our water rights. This measure is in search of problems that don't exist. I'm reminded of a bumper sticker I saw years ago: "Do it today because tomorrow it will be against the law". These frivolous laws are the reason the Republicans won so big in the last election across our country. In their effort to get rid of the laws like this, they are also eliminating ones that are important. I don't see our country recovering from what this federal administration is doing. Just because you are called Legislators doesn't mean that we constantly need more laws legislated. Perhaps you should focus on the bigger problems like homelessness, and mentally incompetent people roaming the streets among the many others. People are being encouraged to move to Oregon but the infrastructure to accommodate them is not keeping up with the need. I suppose it looks good to claim that you passed new laws but PLEASE focus on the needs of the many rather than pick on smaller groups that can't defend themselves.
