Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

I oppose this bill. So much mismanagement of our state resources has resulted in waste and destruction; California is an excellent example of this. And the "fix" is falling on the shoulders of hard working Oregonians. Farmers and ranchers depend on their water rights for their livings. Taking that away from them will destroy livelihoods and generations of farms. Farmland left dry will become hazardous, adding to a growing problem.
