

Submitter:	Eric Hill
On Behalf Of:	5th Generation Oregonians
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1153

On behalf of our entire family, we are strongly opposed to this bill. This will hurt our agricultural community even further, without offering a real environmental solution. This state continues to overregulate, and over tax, driving out family-owned operations. Please instead start helping Oregon's working class.
