SB1153

Don't mess with Oregonians' water rights. This strange, unGodly governor and legislature already have a strangle hold on too many important things pertaining to most Oregonian's lives.

Don't let Kotek steal from us. Make her keep a budget, just like the rest of us. Our kicker is NOT up for her to feast on!! Someone needs to stop her.

Also - start managing our forests and lands again, instead of burning them for money. Our lands and forests are NOT for sale by you who have NO interest in, or consideration for them, except for how they may monetarily profit YOU! You come and play and leave your garbage and throw your weight around in Salem, because of your power.

You don't see or know what your actions (and lack thereof) have caused out here with the fire last Summer! You have no idea, but summarized our massive losses out here with two sentences at your meeting to go after the federal money you were slobbering to get at last Summer.

Get real, remember you're human, and after you die (and die you will!!)... you'll be judged for what you've done in your life on this earth (and many of you will be cast into hell with the devil, for the evil you've perpetrated).

Do your jobs, protect our state, lands, people - instead of protecting your own greedy interests.
