

Submitter:	James De Lap
On Behalf Of:	FFF
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1153

The primary concern is for the fish and other aquatic life and how the water rights transfer will affect them.

Water rights transfer is for the convenience of the person requesting the transfer. How the transfer will affect all aquatic life is much more important than the convenience of people.

Aquatic life has no control over their living conditions and must be protected and considered when making decisions that affect them.
