

Submitter: William Burt

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1153

To the Committee:

SB 1153 is a terrible bill, a "solution" in search of a problem. It's yet another attack on our agricultural communities that threatens to kill farming in Oregon. Why do you think farmers are selling their land and leaving this state in droves? Why do you think over half of Oregon wants to secede from the state and join Idaho? It's oppressive micromanaging like this. Only Communists could conceive of a draconian bill like SB 1153, which will restrict water availability and flexibility and increase legal jeopardy for farmers. This is yet another state bureaucratic power grab and an attack on rural Oregon farmers.

Please vote "NO" on SB 1153!

Sincerely,

William Burt
