

Submitter:

Tami Leest

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

This measure will have economic impact if passed because all rules requiring enforcement have impact. It creates new jobs and those people don't work for free so there is economic impact from the start.

I live in the country to stay away from the many rules and stupid people. Don't ruin our country way of life and bring more stupid people out here to measure our lives. Instead they can stay in the city and measure the amount of stupidity that thrives there.
