

Submitter: Norma Fordyce

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1153

My husband and I started farming in 1958 by renting 5 acres and planting strawberries taking us 16 years to get into full time farming. Last farm year was very difficult for our family farm business. We received a low price again for our Blueberries which did not cover the cost of what we spent on them. Plus weather and plant loss of most of our Strawberries. Now the Rule Committee of Senate Bill 1153 could make even more hardships for us besides weather and market prices.  
Sincerely, Norma Fordyce
