

Submitter:

Carma Coleman

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

I know no one in the state of Oregon who are in favor of this measure. We certainly are not. The State does not own the water. It is used for the purpose of watering the area and home on the property it's on. Personal property rights dictate that property needs cared for with the air and the water available. The home and property owner needs water to exist. Stay in your governing lane, Oregon. You don't own Oregon.
