

Submitter: Joyce Park

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1153

We have a well/pump in the country. Should we have to re-drill, it should not be up to a committee to decide yeh or neh. This bill is too broad, and touches too many affected areas which it shouldn't. We pay taxes just as much as big business does. We practice conservative measures of water conservation on our five acre property.
