

Submitter:	Mary Hoehna
On Behalf Of:	Self and family
Committee:	House Committee On Revenue
Measure, Appointment or Topic:	SB485

To the committee: In regard to SB485 I hope that you all would listen to what family foresters are saying. Oregon has a reputation as a high tax state, this is not surprising considering what the whole Legislature has proposed this session. In any case, this bill will correct a problem for forestry families being able to pass on a wonderful heritage to subsequent generations. Having to sell the family farm or forest property in order to pay the dead taxes is a horrible way of treating people! Please pass this.

Thank you,
Mary Hoehna
