

Submitter: Sandra Ericson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1153

Please support this bill — it speaks for the life that cannot speak, and we must pay attention to life in the streams and on our grounds — without it we will be endangered. Present day profits must be tempered with the knowledge that our own lives are diminished when natural animals and plants are threatened. Old capitalistic ways no longer work.
