SB1153

I'm in opposition of any bill that removes rights from myself or my family and friends, and farmers are our friends. We ding the farmers and that's more cost that hits my pocket and I want and need things and services to get less expensive. We as Oregonians need to look out for each other and stop letting big companies dictate our futures. And you guys as politicians are supposed to do and follow what its constituents wants and needs. No new taxes for anyone, tax cuts please.

Thanks Matt
