

Submitter:	Lois Grothe
On Behalf Of:	SB 1153
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1153

The fact that the state wants to have such control over water rights and have final say over who they are allowed to transfer to is an example of a globalist totalitarian government wanting to control every aspect of citizens lives. A farmer should be able to pass the water rights to the people who inherit or buy their property. End this bill. Please.
