HB3654

Good morning,

I am Monique Bochsler, and I am writing to express my strong support for HB3654. As a resident of a small town, I understand the challenges we face, particularly in terms of limited resources compared to larger cities. This bill addresses an important issue by correcting an unintended inequity in matching requirements. Currently, both large and small cities are required to provide the same match for a \$1,000,000 project, despite the fact that larger cities have significantly more resources at their disposal.
