SB1153

I live in Sweet Home and have a private well. This is one of the reasons I bought my home and property. I pay to maintain and keep my well clean and that's all I should have to do. The city has its hands in everything else and should not have the right to take this away from us or have any say in! I see how bad my neighbors water is because it's city water so they do not even do a good job on what they are already responsible for. Just another way to put greedy hands in something we have already paid for and work hard to have. Leave our wells alone!
