Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

Impacts to fish, wildlife, water quality, and recreation SHOULD be considered when determining water rights. SB 1153 would require the Oregon Water Resources Department to consider potential streamflow impacts as part of its existing process for reviewing proposed water right changes (called "transfers"). With many streams at risk of running dry, reforms like this are critical for our shared water future. Water is an essential human need and we must protect it!!!
