

Submitter:	Bryan McGregor
On Behalf Of:	Oregon Citizens
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1153

I submit this testimony in absolute opposition of SB 1153. We Oregonians have had enough, stop with the restriction of our right to water. Our farmers, ranchers, private land owners, and others are being strangled by these restrictive bills. Our well water, irrigation, and private properties are not the states to control. Our farmers have been attacked for years and are now afraid of what our state government is doing to them with the strangle hold on water. Please vote no on SB 1153 and preserve our rights to water.
