Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

Oregonians have been trying to trust our government. I have watched local, state and Federal all gang up on Hult Dam to decommission it. Taking a rural communities' water recreation rights away. This was our public land and water. Traded behind our back. Not fair.

Now my Oregon is taking my favorite pond

Away because govt is bigger than me. Now, you want to impose on my private land, my personal space and my water. You want to tell me how I can use it and how much and come on my property whenever you want. Well. No one listened to those users at Hult Dam/Horton Reservoir. A kayakers dream. No one wanted to help us keep the Dam. I wish Jewel was here. Now you want to take another sacred place away from me. My water rights. My freedom. My home. My privacy. My protection from trespassers. I say "NO" on SB1153. Protect us, quit hurting us!
