Senate Committee On Rules

Measure, Appointment or Topic:

SB1154

When will the legislative arm quit eroding Oregon people's rights? This is highly opposed by a majority and still you send it on? This strip the rights of land owners and future land owners of the rights that were legally given to them in the first place. This is a HUGE government overreach and is unconstitutional. This bill has been opposed again and again and still you try to sneak it in at the last moment. This was not voted on by Oregonians and as such, you have not right to force the will of a few onto the rights of many.
