

Submitter:	Robert King
On Behalf Of:	Oregon
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1153

I oppose any well metering that goes on in the state of Oregon. Reason for opposing, don't we already property taxes already? Imagine having a great winery and you've been selling bottles of wine across the country for years now you have to increase your price on that bottle of wine so much that you have to lose your business because you're being taxed on the water you're using?

Haven't the people of Oregon already been taxed enough, with being one of the top 5 the highest income taxes in the United States? Isn't that you're trying to already increase our gas tax by 50% too? And aren't you already trying to increase our property taxes also? And buying a new car so now we have luxury tax. So we're getting tax more than any other state that I know of and without businesses coming here because they're afraid to get tax for a water well they might use on top of all their new business taxes, that you've created so they don't come here! Be nice if the politicians of Oregon stuck up for the people they represent, not their own pockets!
