

Submitter: Elisabeth Gross

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1153

Afternoon,

Please vote yes on SB 1153 to tighten a dangerous loophole that currently allows the Oregon Water Resources Department to approve water right changes even if they hurt our streams.

As someone who lives on the upper deschutes, I see first hand the negative impacts of low stream flows every year. Let's build a system that supports the ecosystems, we all rely on.

Thanks,
Elisabeth
Bend, Oregon
