

Submitter: David Wall  
On Behalf Of: Mr Oregon OPPOSES SB 1153 SB 427  
Committee: Senate Committee On Rules  
Measure, Appointment or Topic: SB1153

I OPPOSE [SB 1153] and [SB 427 (2025)].

[SB 1153] and its' close relative [SB 427 (2025)] create more problems for all concerned.

Both [SB 1153] and [SB 427 (2025)] focus on fish and additional aquatic wildlife resulting from " diminished stream flows" resulting from the complicated "Water Rights" debacle but the hidden issues of concern are to facilitate and enable continuous residential and industrial development.

\*\*\*Both [SB 1153] and [SB 427 (2025)] are designed to reduce agricultural use and access to water. This cannot happen.

\*\*\*Oregon is an agricultural state.

\*\*\*\* Farmers, Ranchers, Vintners, Foresters, Fisheries and animal food products are far more valuable than supporting residential and industrial expansion.

For the Klamath region-, You should have thought about stream flows before you lit the fuse and blew-up your four dams.

[SB 1153] and [SB 427 (2025)] requires numerous professional reports using significant resources defined in [ORS 192.245].

[ORS 192.245]: [https://oregon.public.law/statutes/ors\\_192.245#text-pane](https://oregon.public.law/statutes/ors_192.245#text-pane)

Unfortunately, [SB 1153] and [SB 427 (2025)] have 'No' budget allocation(s) and the funding source(s) are not identified to pay for the expansion of (OWRD) and its' deleterious effects upon Agriculture, et cetera.

[SB 1153] and [SB 427 (2025)] are thus, incomplete as to resources required of (OWRD's) expansionary needs and is therefore incompetent and should be rejected and denied (with extreme prejudice).

David S. Wall

Mr. Oregon Concurs and says, "There should be statewide moratorium on residential and industrial development. Oregon needs leadership changes to protect our water, agriculture, fisheries and forest related resources and to prohibit residential and

industrial growth."
