

Submitter:

Mindy Sheley

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

This is a very open ended bill. It will result in layers of governmental red tape while not providing any practical solutions or resources to help affected farms or communities, all while ignoring the historical and legal framework that has governed water usage in the state for generations. Vote No on this bill and its environmental overreach.
