

Submitter: David Wall
On Behalf Of: Mr Oregon SUPPORTS HB 3968
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB3968

I SUPPORT [HB 3968].

A Patriotic Welcome to Oregon is hereby tendered to the United States Space Force!

I just don't get it.

Our Space Force was created [20 December 2019] by President Trump.

Fast forward to [5 June 2025] roughly four(4) years, six (6) months and five (5) days later, the State of Oregon officially recognizes our Space Force.

Then the Oregon Legislature presents a sixteen (16) page Bill to add the "Space Force" alongside our other Members of our Honorable Armed Forces.

Of course, the "Space Force" is an integral part of our Armed Forces, including Oregon.

** Maybe it took so long for Oregon Legislators to welcome our Honorable Space Force because they were smoking all that good weed and were just to "spaced out" to notice. Could it be, Oregon got "busted" by the Space Force peering down on them and told President Trump?

** Or maybe Oregon couldn't come up with viable excuses to the Federal Authorities why Oregon Legislators shield Illegal Aliens from Immigration Customs Enforcement and were just too scared to recognize the Space Force.

** Or is it because the Oregon Legislature through its' seditious status in the new Confederacy as a "Sanctuary State" permitted one-hundred [100] consecutive nights of ANTIFA riots in Portland. The Oregon State Police refused to give mutual aid to the Portland Police Bureau because the District Attorney for Multnomah County was releasing vast numbers of rioters from custody and OSP didn't want to have their Officers injured by rioters who would not be prosecuted.

David S. Wall

Mr. Oregon Concurs and says, "Welcome Space Force! Oregon still has a boatload of patriots who believe in the Ol' Red-White and Blue!"
