

Submitter:

Lucinda Wentlein

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1154

We do not need to have our personal wells regulated. This bill is the government overreaching and Oregonians are not ok with this. These are our wells and our private property so I am against this bill and I am sure most Oregonians that own wells on their property or have owned wells on their property are going to be against this bill. Government of Oregon stay in your own lane and stop infringing on our rights
