Measure, Appointment or Topic:

SB1154

I am in opposition to any measure that seeks to monitor or restrict my rights to use water on my property or that seeks to take away my right to transfer my water rights. Any measure(s) that propose this are kneejerk reactions to perceived problems and are an overreach of government on individual rights.

Individuals in my situation do not have a ready-made, all encompassing water utility to provide water/sewer services for our homes and properties. We provide these services to ourselves at great cost and personal responsibility. Imposing restrictions on our use of our water will cause difficulty to most of us and damage to others. I request a "no" vote. It's not broke, please don't try to "fix" it.
