Committee:

House Committee On Rules

Measure, Appointment or Topic:

SB238

At a time when Fascism is rising across the US, we cannot afford to support this level of surveillance of our selves, families, and communities. Increasing unmanned drone use will increase uncalled for violations of privacy that have no benefit to community safety. This increased drone use will be abused by the police and the State in order to further violate the rights of marginalized persons already too frequently abused by 'public safety' measures. Investing, instead, in community programs, education, and healthcare will do far more for public safety than drones ever could. Please oppose any and all increases to the use and funding of unmanned aircrafts such as drones by the police.

Thank you for your time.
