I oppose SB 238A and am shocked that this is even being considered. The American people (a country founded on freedom and governed by the constitution, on theory these days)

has already had DOGE come in and obtain our most personal information without our consent, women (which 70 million would be impacted) will face strenuous hurdles in order to vote if they have taken their husbands last name (in yet, another cloaked bill passes) and now this! NO, we do not need or want, want more element of big brother in our lives.

stop it
