

Submitter: Tim Hunter

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1154

This bill has not changed enough to justify any support from me. The vague wording only inspires mistrust from anyone who has a private water well. The inaction of previous agencies over forty years does not justify a smash and grab mentality to catch up in one giant leap. Laws and agencies currently exist for the majority of issues a private land owner with a private well might have. A strong no is all I have for this bill.
