

Submitter: Dan Hoyt

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As near as I can tell this bill seeks more money for the same programs that have delivered poor outcomes for decades...auto dependency, \$\$\$\$ property damage, countless injuries and deaths, unsafe/unhealthy neighborhoods, and of course a huge investment in the climate crisis.

Are you-all enjoying the record setting heat and forest fires?
