On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Oregon residence and I being one of those residents oppose this HB 2025 tax increase. The Oregon government has taxed its citizens almost to death! when people are living on the streets, homeless can't afford homes for themselves and parents can't afford food to feed their children, shows this government and every citizen living in the state that more taxes collected will not helping anyone. Just like everyone else in America, the Oregon government must learn how to budget the balance that they have before asking for any more taxes from its citizens! So I oppose this tax increase.
