

Submitter: Tony Kuenzi

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I support a 2025 transportation package that works for ALL Oregonians and reflects our shared values. I am primarily a winter trails recreation user. working farming hours and continued months of work mean that we rarely have the opportunity to enjoy the trails in the spring and summer. Please support and pass the transportation package with full funding so our winter recreational trails will be there for our families and we all have an opportunity to enjoy Oregon year round.
