

Submitter: Christian Kruse

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This transportation bill seems to assume taxpayers are able to pay more taxes. In my community, they are focused on keeping their families fed. We have been bled dry by inflation and higher taxes. You are pushing working families into poverty! Once middle class families are now poor. There's no money for health care, vacations or children's activities. Staycation is what most of us have planned for the summer..

REVIEW the spending and PRIORITIZE what you have. Enough is enough!!!
