

Submitter: Robert Hafer

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I find it extremely curious that the committee is asking for the same amount of money that they somehow mysteriously lost in an accounting error, 1.1 billion dollars. Even if that were not true, then where are your studies that support increased funding for MAX, for electric buses, for a new bridge connecting Portland to Vancouver serving mass transit especially when traffic is gridlocked between Vancouver and Portland already.

No, No and No
