Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose HB 2025. These additional taxes would present an immense hardship on Oregonians who are already struggling under the weight of the current state taxes. It is past time for Oregon agencies to work within their means. Leadership should be working hard to seek cost cutting opportunities rather than always coming up with new ways to tax us. This would be the correct way to represent Oregon citizens.
