As one who practiced law for more than 30 years, I oppose this legislation that gives law enforcement agencies greater authority to use drones without a warrant. Its constitutionality is highly suspect and certainly increases the prospect of future “Big Brother” omnipresence based on vague concerns for public safety and keeping law and order. Currently, we are seeing the president overreach and act unconstitutionally by sending the National Guard and U.S. Marines to L.A., which by any definition is not engaged in insurrection. I don't want this to become a law, thus enabling overreach and gross invasion of privacy more thinkable and possible in Oregon.
