Brian Campbell

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1154

I am firmly against this measure/bill. As an owner of a household well it will dramatically affect me. As we have trace amounts of Arsenic in our well. For drinkable water we treat it at the end use. Per the state order this will be a contaminated well and more than likely shutdown and redrilled. This would be an impossible task, both with affordability and it would tap in to the same aquifer. What would benefit myself and my neighbors is the shutting down of illegal marijuana grows.

Thank you for your consideration

Brian Campbell
