

Submitter: Lindsey LaTray

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose HB2025. Owning and operating a car is very essential to the lives of many Oregonians. There are already too many taxes and fees imposed on them and we do not need any more. What we need is an audit into how ODOT and TriMet are spending the money they already have.
