

Submitter: Tiffany Grantom

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Our tax burden is already too high. This bill does not serve the citizens of this state, your constituents. We don't believe you need more money, we believe you need to manage better the money you already have. Promises about transportation improvements in the past haven't been kept, though the money was given. We don't believe the promises being made now. Don't burden this state with further taxes to fund promises that won't be kept.
