I vehemently oppose this tax hike. You are raises taxes on the working class and poor, making life so much harder with these taxes. Shameful. You can't get ODOT to provide good accounting and want to make your citizens pay the price for the inadequacy of the Oregon government ability to manage funds and departments. Maybe look at the programs that aren't working and cut them instead of punishing your citizens with such demanding taxes. Absolutely abhorrent that our law makers are proposing more taxes when the taxes we do have to pay are so poorly mismanaged. No no no more taxes.
