Dear Legislators,

I ask that you immediately oppose SB 238.

I am a law-abiding citizen that is not anti-cop, but police have repeatedly shown themselves to align themselves with fascism, have harmed our people particularly during protests, and I do not want them to have more tools to use against our people. Furthermore, I deeply value my privacy and don't want any more human-made technology nor noise pollution than I already have to deal with in the space above my home as a resident of Kenton. Several months ago the police used drones during a stake- out just one block from my home for someone that robbed a bar. The drones did not help them catch the suspect. It was just an annoyance, a quality-of-life disruption, and a privacy invasion for my whole neighborhood. I've had experience with police drones already and I oppose their use entirely.
