

Submitter: Matt Lane

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Let's make Oregon a leader in electrification. Clean energy is a winning focus area for Oregon in so many ways: it lowers global warming, lowers air pollution, creates jobs, and is lower cost versus dirty fossil fuels. I would like to see us go faster on a complete EV based public transit fleet and other government vehicles, increased public charging stations, and we need permitting reform to get clean energy projects on the grid quicker.
