HB 27 is a travesty. The people of Oregon DO NOT need more taxes! This bill has 35 new tax items that will drive up prices and bankrupt the ordinary citizens of Oregon. I live on a limited income and have worked my whole life, first as a farm kid and later as a single mom who did not receive a dime of assistance. The budget needs to be reworked if there is no money for whatever these new taxes would go to. I'm tired of my hard earned money going to things that I don't think we need or believe in. Like funding gender affirming programs. I vehemently oppose this bill. All these bills are ruining Oregon. DO NOT PASS THIS BILL.
