

Submitter: Joann Boyles

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Since I live in a small town just outside of Eugene.. I'd love to see improved public transportation. Traveling in Europe has opened my eyes to the subpar infrastructure we have in the US. We are so far behind. Our quality of life is lower. And our people are overweight and isolated. This would help to improve on many levels.
