

Submitter: Cathy Lewis-Dougherty

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I support the transportation package but forth by the Democrats, but feel it does not go far enough to combat climate change. I have two daughters, just reaching adulthood who will inherit this warming world. I would like to see more EV rebates, better and more charging stations, electrifying buses, more public transport and added rail in Oregon. The funding proposed seems fair and balanced. All of us need to pay for roads and transport - Democrats and Republicans alike. Thank you.
