

Submitter: Russell La Barr

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

“Directs the Division of Audits to conduct performance audits of the Department of Transportation.” Just like the “inflation reduction act” this title is deceptive. I imagine if it said “raise taxes to fund ODOT” it might not actually pass the legislature due to public pressure. How about our government actually work within their budget and stop making it impossible for all class of citizens to live. At some point middle and upper classes will leave this state for a more tax friendly one. Stop killing our state with your inability to balance a budget. No new taxes!
