

Submitter: Mike Perham

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I fully support any measures to increase funding for walking, biking and transit. We continue to push massive amounts of money to roads, while our cities are choked with traffic and the majority of public space is asphalt and cars and hundreds of people are killed every year. WE NEED TO CHANGE DIRECTION and revamp our transportation system with cheaper, safer options and it starts with fully funding those options.
