

Submitter: Bradley Johnson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please do not raise taxes and fees as we cannot afford them. Oregon is hurting its citizens, I thought that your job as legislators was to make our lives better, this will not help that cause. Please do the right thing and find ways to cut things that are not absolutely necessary so "We The People" can afford to stay in our homes, afford groceries and secure the medicines that keep us going. In all sincerity, Brad Johnson
