Committee:

Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose any new taxes on Oregonians. Rein in the spending and make ODOT more accountable for their mismanagement of the funds they already receive from "we the taxpayers". Businesses are leaving Oregon because of taxes and the failing policies that Democrats have voted in for years/decades. A change is sorely needed in Salem. The current governor and legislature are just tax and spend and line the pockets of the teacher's union and other chosen pork. It needs to STOP.
